Cura™

CURA K + N Rated ECO Safety Glasses

The Cura ECO safety glasses are a premium quality, environmentally friendly safety spectacle. With a modern sporty design, the contoured dual lens and low profile frame provides an unobstructed wide field of vision. The distinct two slot temple design provides enhanced flexibility and allows the arms to contour to different head sizes. This, partnered with the soft nose pad ensures maximum comfort and a secure fit. As part of our innovative and market leading sustainable eyewear range, the Cura™ ECO safety spectacles are made using recycled materials and environmentally friendly bio-based manufacturing processes. The side arms and frame are made from 99% recycled Polycarbonate. This significantly reduces the amount of virgin resources required in the supply chain and reduces the CO2 from 4.7kg per 1kg of production to 0.02kg. The bio-base manufacturing process reduces CO2 production by 50% in comparison to petroleum based material. TPE/TPR materials that are less harmful to the planet than PVC. Packaged in recycled cardboard and individually in paper bags for Plastic free packaging.

Premium K Armour coating, guarantees the highest level of scratch resistance, extending the life of the product

Premium N - RX-Anti fogging - offers maximum resistance to fogging on both sides of the lens, highest level of Anti fog protection.

FURTHER INFORMATION

STORAGE / TRANSPORT: This product should be stored at a temperature 0-35C and 30-70% RH and kept away from solvents, or solvent vapours or any corrosive materials, as these may seriously reduce the impact protection provided by the spectacle. During transportation, ensure the product is well packaged to prevent damage.

PRECAUTIONS BEFORE USE: It is important that the eyewear selected is suitable for the protection required and the wear environment. If in doubt, further information should be sought from the manufacturer. The enclosed product information sheet should be read before use.

RECOMMENDATION / CLEANING: This product can be cleaned with soap and warm water or, if required, disinfected with a UV lamp or cleaned with a common domestic disinfectant. The lenses are coated to provide a certain level of scratch resistance,

however, they are not scratch proof and it is recommended that wiping of the lens is to be kept to a minimum and only done so with a soft non-abrasive cloth.

SERVICE LIFE: The actual wear life is dependent upon the type of eyewear and the environmental conditions which can affect the wear, contamination and degradation of the product.
